Dear Representative Jeffries,

The Executive Board of Local 99, American Federation of Musicians, has voted to endorse and support the Copyright Alternative in Small-Claims Enforcement Act ("CASE Act").

Musicians face a constant struggle with enforcement of their copyrights, so passage of H.R. 3945 would provide a welcome, cost effective, tool for helping to maintain control over their creative works. Fair compensation for their hard work is a must, so we appreciate your recognition of that ethic and your work to protect their rights.

We look forward to passage of this Bill, and please feel free to contact us for any additional support, as needed.

Sincerely,

Bruce Fife
President, AFM, Local 99
